

March, 2010

From Jack McNevin, President

March brings two Tournaments a month, Match Play signups, and Senior Short Game Clinics. The first Clinic will be April 8th at 2 pm. Sign up and pay (\$10) in the pro shop. Some skills covered will be bunker play, chipping and putting, shots from 50 yards in, bad lies around the green, etc. Clinics will be the 2nd and 4th Thursdays of the month for 3 months. Limit of 12 players per session for 2 instructors, (6) each. This is the best way to lower your handicap!! Plus the " Skills Challenge " at the end for \$\$\$ should be a lot of fun. You must participate in at least 2 clinics to play for \$\$\$! The signup sheet will be available in the pro shop about March 15. We are also going to have a " pool " as to when Tiger returns to golf or someone jumps off the Golden Gate Bridge, whichever comes first. 25 cents per day from March 1, pick your date! The rains are almost over, come on out, play well.

A reminder, Las Positas Seniors members get an automatic 10% discount in the Pro Shop.

From Paul Bauman, Vice-President

Match Play tournament is filled for 32 players, if you are still interested put your name on the waiting list and if anyone cancels or we 32 more we can expand the tournament. Always possible there will be some cancellations. Also, it looks like we will start about two weeks after they aerate the greens which i believe is at the end of March. Also the maintenance guys are doing a really good job considering the amount of rain we are having. It's still wet and sloppy but they are getting the mowers out as soon as it is practical and in the mean time keeping the greens in excellent shape.

From Jeff deBenedetti, Las Positas Head Pro

Hit it straighter

Come on....can it be this easy?

Every golfer wants to hit the ball straighter, however, if you ask them to give up some distance to achieve this most will say yes if they are around a group of people. But secretly, the answer is no. If you can get over losing a little distance with the driver, maybe 10-15 yards, I have the secret that anybody can make work for their game.

Tee the ball a little lower than you are accustomed to. By doing this, the ball will take off a little lower. Balls with lower trajectory tend to move less sideways than those that fly higher. The ball will hit the ground sooner and roll longer.

The end result is a little shorter, but in the short grass. What would you rather hit, a 7 iron from the rough on #14, or a 6 iron from the fairway?

Give me the 6 iron.....
