**From Paul Bauman, Vice-President**

Time change coming, does that make it easier for you or more difficult to play? A lot of work being done on the golf course, punched the greens, and they have come back better than ever. Over seeded the fairways and the effort needed to have this be successful may cause the them to be a bit shaggy for a while, but bear with the grounds crew, I think we will all be very happy with the ultimate results. As usual if we get rain it makes it difficult to mow the fairways and rough but they do every thing they can to keep the course as playable as possible. Always keep in mind that the conditions over the next few weeks are not from lack of caring but are intended to keep upgrading the course for us. If the fairways come back like the greens have and if the weather cooperates, we are really going to have a nice course even before next spring. So when the sun shines and it's not too cold keep coming out and enjoying yourself.
